

Specifications for Gum Rosin

Parameter	Value
Molecular Formula	---
Mol Wt	---
CAS #	[8050-09-7]
Description	Yellow crystalline chunk and powder
Melting point in deg cel	75-81
Acid value in mg KOH / g	163 - 173

Uses:

Industry	Application
Resin	In manufacture of fortified rosins and alkyd resins
Fragrances	In mfr of essences and fragrances
Printing Ink	As resin in certain off-set ink formulations
