

Specifications for Methyl acrylate

| Parameter | Value |
|----------------------------|-------------------------|
| Molecular Formula | C4H6O2 |
| Mol Wt | 86.09 |
| CAS # | [96-33-3] |
| Description | Clear colourless liquid |
| Purity (%) | 99.5 min |
| Sp gravity @ 20/20 deg cel | 0.955 – 0.957 |
| BP in deg cel | 80 |
| KF water (%) | 0.05 max |
| MEHQ inhibitor in ppm | 10 to 20 |

Uses

| Industry | Applications |
|---------------|-----------------------------------|
| Plastic | As copolymer |
| Adhesives | As copolymer |
| Manufacturing | In anti-oxidants and amino esters |
